Breastfeeding in the Modern Age — Cultural and Social Impacts

Thursday, October 26, 2017

Bouras Auditorium
Overlook Medical Center
99 Beauvoir Avenue
Summit, NJ

The purpose of this conference is to provide ongoing lactation education.

Objectives

At the end of the conference, the participant will be able to:

1. Summarize the association between infant feeding method and the risk of childhood obesity.
2. Explain the recommendations concerning marijuana use and breastfeeding.
3. Describe milk production norms during the first week and how to assess the need for supplements.
4. List three best practices during the first 36 hours of life.
5. Identify two evidence-based strategies that can be used when working with families to increase the rate of exclusive breastfeeding.

Nancy Mohrbacher, IBCLC, FILCA is author or coauthor of several books for professionals and parents. Nancy has been helping breastfeeding families since 1982. Board-certified as a lactation consultant in 1991, she ran a large private lactation practice in the Chicago area from 1993 to 2003. In 2008, Nancy was in the first group of 16 to be awarded the designation Fellow of International Lactation Consultant Association (FILCA) for her lifetime achievement as a leader in breastfeeding.

Target Audience

Maternal-child nurses and physicians, lactation consultants, family practice physicians, midwives, doulas and peer counselors
