PRESENT

Perinatal Loss and Bereavement Training

Friday, May 11

8 a.m. – 4:30 p.m.

John Theurer Cancer Center
Conference Rooms A & B

PURPOSE

The purpose of this training is to provide participants with an educational experience that enhances their knowledge, level of skill and personal awareness while providing care to families who experience the loss of a baby.

OBJECTIVES

Perinatal Loss and Bereavement Training will:

- Enhance your understanding of perinatal death and its effect on parents and family members
- Provide you with the latest evidence-based information about perinatal bereavement care
- Help you understand what “normal” grief looks like and how individuals grieve differently
- Discuss the role of interdisciplinary teams in caring for bereaved parents and families
- Describe how to offer options to families and therapeutic communication techniques
- Provide two examples of honoring the relationship between a parent and child
- Discuss the role of keepsakes for a family’s grief
- Identify self care strategies for caregivers

OUTCOMES

- Express an increased sensitivity to the grief of parents and families who experience a pregnancy loss, stillbirth or newborn death
- Discuss evidence-based strategies to facilitate the grieving process in perinatal loss
- Explain the role of interdisciplinary resources that can provide support in perinatal loss

Continental breakfast and registration begin at 7:30 a.m. Lunch will be provided.

For information, contact Virginia Cuce, RN at Virginia.Cuce@hackensackmeridian.org. Registration information to follow.
